Manila Was Captured Before the War Was Declared Off

INSURGENTS WILL NOT BE RECOGNIZED BY GEN. MERRITT

Washington, Aug. 18—Special—From the best data obtainable it is apparent that Dewey's attack upon and capture of Manila took place during the actual war period. The difference in time between Washington and Manila is a little over twelve hours, and thus although according to the calendar the battle was in progress at the time the protocol was signed last Friday, it was in fact all over and the surrender of the city and the island of Luzon had been consummated prior to the signatory act. This is important only because it removes a technical ground of dispute. The fact that the battle was fought and the victory won before Dewey could have received formal notice of the agreement for the cessation of hostilities would be sufficient to silence any quibble Spain might raise.

Merritt Sends a Report.

Washington, Aug. 18—Special—The following is from Gen. Merritt: "On the 7th instant Dewey joined me in the forty-eight hour notification to the Spanish commander to remove non-combatants from the city. We received a reply the same day expressing thanks for the humane sentiment. On the 9th another joint note was sent setting forth the sufferings in store for the sick and non combatants, and demanded a surrender in the name of humanity. The surrender was refused, but asked the privilege of consulting the home government. This was refused, and on the 13th made the attack. We carried the Spanish works after an hour's shelling. The behavior of the troops was excellent. About fifty in all were wounded. The troops are occupying the walled city. Malate, Binondo, and San Miguel, all important centers, are protected. The insurgents were kept out. No disorder or pillage."

Differences of Opinion.

Washington, Aug. 18—Special—There is much variance of opinion among senators and government officials on the Philippine subject, some leading men holding to the theory that the retention of the city of Manila and the harbor and bay of that name will be sufficient for the needs of the United States in establishing herself as a leading factor in the commerce of the Orient. Others claim that all of the islands should be ceded to the United States, while a third party is advocating a middle course, such as the acquisition of the one island of Luzon. The president is willingly listening to arguments from all who advocate these various theories, and it is expected will form a definite policy in the near future. This policy will doubtless be communicated to the peace commission, but it will not be in the nature of absolute dictum.

Aguinaldo Threatens Trouble.

Washington, Aug. 18—Special—The administration is becoming alarmed over Aguinaldo's threat to enter Manila. A large and menacing insurgent force surrounds the city. The officials are anxious to avoid another conflict.

The Whole Group Surrendered.

Washington, Aug. 18—Special—The Spanish terms of surrender at Manila are stated semi-officially to have included the whole of the Philippine group. To complete the possession of the islands is merely a matter of form.

Spain's Peace Commissioners.

Madrid, Aug. 18—Special—The council has cabled Washington asking for the names of the American peace commissioners. Blanco will preside over the Cuban and Macias over the Porto Rican commission for Spain.

Mails For Havana.

Havana, Aug. 18—Special—Blanco has been ordered to permit the resumption of commercial and postal regulations with all nations, the United States included. Three American schooners arrived today with provisions.

CERVERA GOES HOME

Sets Sail For Spain to Assist In Arranging Peace

HIS SERVICES ARE REQUIRED BY HIS GOVERNMENT

Washington, Aug. 18—Special—The release of Admiral Cervera and his son to enable them to sail for Spain to assist in arranging the terms of permanent peace is expected to bear good fruit. Cervera is one of the few Spaniards in whose honor the government may place reliance. During his stay at Washington several years ago as naval attache of the Spanish legation he was very popular in official circles, and always impressed those with whom he came in contact as a man of high character and chivalrous impulses. The admiral, it is learned, has no desire to deprive the United States of its just dues, but will naturally seek to save his native country as much as possible.

New Warships.

Washington, Aug. 18—Special—The naval program for presentation to congress involving the immediate construction of fifteen warships has been adopted by the naval board experts. The board decided that the Pacific rather than the Atlantic would be the chief theatre of operations in future on account of the increased responsibility of the United States in the Pacific.

Insurgents Must Not Enter.

Washington, Aug. 18—Special—The president has informed Gen. Merritt there must be no joint occupation with the insurgents. He says the insurgents and all others must recognize the military occupation by the United States, and directs Gen. Merritt to use whatever means are necessary to this end.

Is Still Under Discussion.

Washington, Aug. 18—Special—The probable make-up of the peace commission is still the topic of discussion. Day and Davis, it is understood, are sure to be on the commission. Congressman Henderson, of Iowa, Ex-Congressman Tucker, of Virginia, and Justice McKenna are under consideration. Dewey's name is temporarily withdrawn.

First Since the Maine.

Washington, Aug. 18—Special—The cruiser New York, Sampson's flagship, will be the first American warship to enter Havana harbor since the war began. She will carry the evacuation commission to the Cuban capital.

Goes With Cervera.

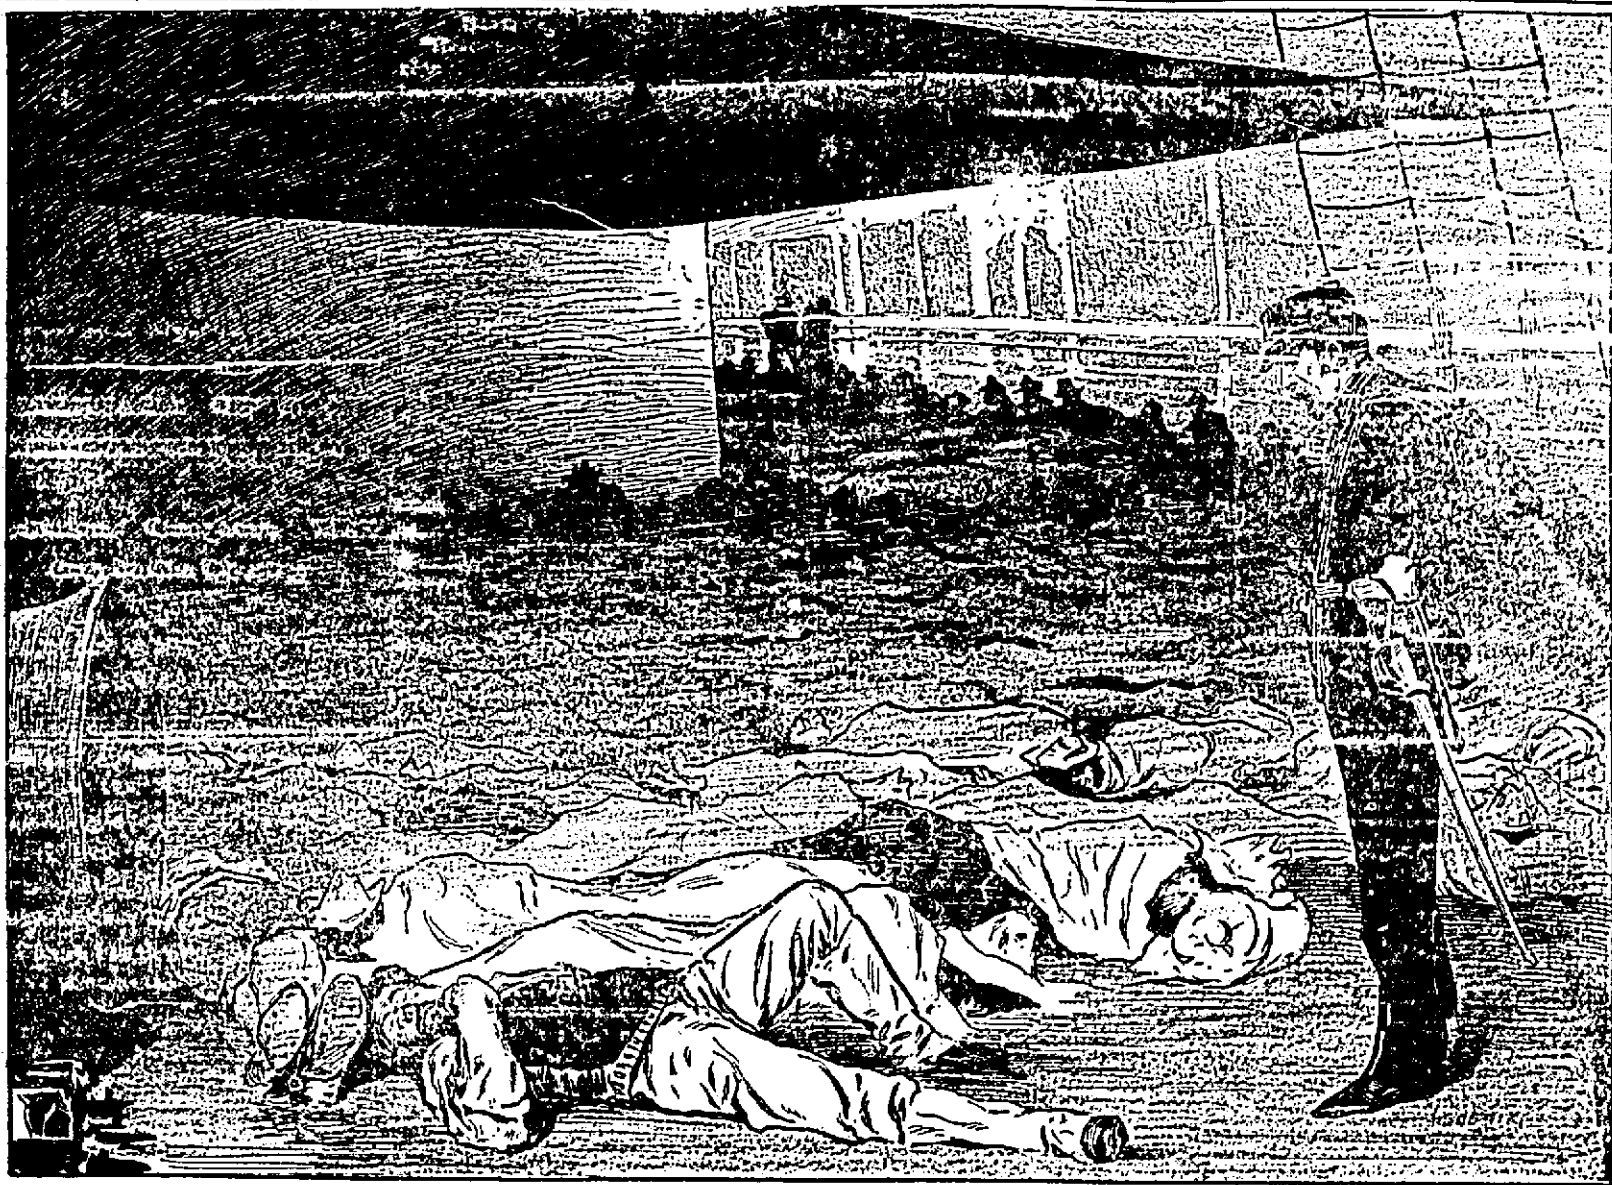

Annapolis, Aug. 18—Special—Capt. Moreu, of the Colon, who was a prisoner of war here, has been ordered released, and will leave with Cervera for Spain today. They are wanted to give counsel to the peace commission.

THE INVASION OF PUERTO RICO. TROOPS SLEEPING ON DECK OF THE U.S.S. "ST. LOUIS." FROM HARPER'S WEEKLY

AFTER A DRAWING BY T. DART WALKER. Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper & Brothers.

T. Dart Walker, the artist and ward correspondent who accompanied General Miles' expedition to Puerto Rico for Harper's Weekly, writes of the scenes on the transports. He says:

"The rank and file were packed as closely as the horses. Their hammocks were new and comfortable. But how much room did they have in which to swing? Just eighteen inches. In the drill regulations of the army the width of a man is estimated at twenty-two inches. It is not pleasant to have four inches of your twenty-two cutoff when you are trying to sleep in terrific heat, and the ship is rolling in the bargain. The troops on the Romanian and the

City of Washington were simply packed on board, and they suffered some. They didn't complain. Why should they? Weren't they going to war, or something resembling it—and why should they expect home or even sea comforts at such a time? The long delay, and uncertainty as to starting were over, and discomfort could be endured because of that. The point of view makes a difference in the perspective.

"The men on the St. Louis and the St. Paul really had some sea comforts however. They had room in which to sleep. Then, too, these ships were scrupulously clean—at least the St. Louis was. Captain Goodrich, of the St. Louis is not the kind of a man to tolerate even a suspicion of dirt. No troopship horrors for him. His com-

plete forethought in providing all requisites necessities and in making his ship absolutely wholesome throughout, was much appreciated by all on board. The large deck on the St. Louis and the St. Paul gave the soldiers comfort. Sleep was impossible in the hot cabins and better bunks—well ventilated though the ships were. The second night found hundreds of men on the St. Louis, privates and officers, stretched out in a confused jumble on the spacious decks, all wrapped in blankets. Mr. Walker's picture, taken from Harper's Weekly, faithfully portrays this scene. Here and there white-clad sailors poked their ways about silently. The soldiers heeded them not; their fatigue inducing the soundest kind of slumber. Nor did the troops move about

much in the daytime. In fact, for three days and three nights each man seemed to lie in the same place. They were resting, simply resting; and the fact that they lay still indicated that indeed they needed rest.

"There was very little seasickness on the trip down—on this ship at least. Only about a dozen fever cases were developed, a fact which reveals the thorough work of Captain Goodrich in making careful preparation of the vessel for her human cargo. The days were hot, but the nights were delightfully cool; and there were no special incidents, other than those which are common on all military transports, where the men laugh and sing and joke and speculate as to the future, and eat and sleep and write home."

## ALL THE NEWS OF THE BADGER STATE

### TRIED KIDD FOR CONSPIRACY IN OSHKOSH STRIKE.

Cranberries and Potatoes Promise An Enormous Yield—Kaukauna to Have Water Works—Pensions Granted to Wisconsin Veterans—An Office Holder For Thirty Years.

Oshkosh, Wis., Aug. 18—Two days have been occupied by the state getting in its testimony against Thomas I. Kidd and others who are charged with conspiracy. This afternoon the prosecution closed and the counsel for the defense moved for the discharge of the accused without the introduction of further testimony. The result was an adjournment until Friday morning, when the motion will be argued.

The state called several witnesses who testified to having been interfered with and molested by striker pickets while going to and from their work in various factories. Witnesses also described the riots at the Morgan and McMillan plants.

A police officer testified that a striker picket once told the witness that he, the picket, was on duty by authority from Mr. Kidd.

Charles Barber, the attorney, testified to a conversation he had had with Mr. Kidd in regard to the latter's relation to the strike, and witness had warned the defendant that he might get into trouble.

Portions of the verbatim report of Mr. Kidd's speech in the South Side Turner hall Sunday were offered in evidence.

The manufacturers say that there is nothing new in the strike situation today, that everything looks hopeful and that the strikers are coming back

to work a few at a time. They all deny that their crews were smaller Monday than they were Saturday, and say that each day for the past week or more the crews have been considerably larger than those of the preceding day.

It is announced that the Foster factory will be started Thursday. Mr. Foster says that a sufficient crew has promised to come to work.

**Potatoes Yield Well**  
Stevens Point, Wis., Aug. 18—The potato crop is excellent this year. Other localities where potatoes are grown report poor crops, which is favorable for Wisconsin. It would not be strange if last winter's phenomenally high prices were not generally repeated this winter.

**Stockton, Wis., Aug. 18**—The potato market opened up here today for this season. Buyers are paying from 20 to 25 cents per bushel for good stock. The early crop is only fair and a very small yield for this section. Prospects so far are for a large crop of late potatoes. Farmers are in hopes of obtaining a good price for their late crop.

**The Cranberry Crop.**

Grand Rapids, Wis., Aug. 18—The annual meeting of the Wisconsin Cranberry Growers' association, was held Tuesday afternoon at Gaynor Bros.' marsh, eleven miles from here. Thirty-five large marshes were represented. What is known as the "standard barrel" was finally adopted. This action was made necessary owing to eastern competition. The crop estimate for this year was placed at 10,000 barrels for Wood county and 8,000 barrels for the Berlin district. President A. O. Bennett delivered his annual address, which was full of suggestions for cranberry growers. The wives of the members served dinner.

**Waukauna's Water Works.**  
Waukauna, Wis., Aug. 18—The Kaukauna Water Works company has renewed its contract by depositing a \$1,000 certified check guaranteeing 25 percent of the work to be completed by Oct. 1. The plant contemplated is to cost \$75,000 and is to be finished by January 1, 1899.

### SCALCHI MAY COME HERE

Prospect That the Great Singer Will Pay Janesville a Visit

Manager Peter L. Myers is now negotiating with the manager of Mme. Scalchi, the distinguished operatic singer, for a concert to be given in this city early in December. Mme. Scalchi is one of the most talented singers of the century and easily stands next in point of merit to Patti. She has associated with her some of the best musical talent, both vocal and instrumental that could be obtained in the world. The concert given by this organization, besides being artistic in every respect are treated as great social events and attract the elite of every city in which they are given.

Manager Myers has offered the company a very large guarantee and has assurances that it will be accepted but has not yet secured a date. The company will be in Chicago in December and it is thought will make a date for Janesville either prior to or immediately following that engagement.

### HUSBAND MAKES THE CHARGE

Says That His Wife Is Acting Queerly at Times.

John Hovland, of Beloit, was in the city again this week to see what can be done towards having his wife confined in an asylum.

He says he separated from her two years ago. Mrs. Hovland was a Miss Torson before she married, and her parents live in Clinton. The couple went to Chicago from Beloit during the year of the World's Fair and while living there had trouble and agreed to live apart. The children were taken by the father to his wife's parents in Clinton. Hovland came to Beloit last spring, his wife remaining in Chicago. Two weeks ago Mr. Hovland went to Clinton to see the children and at the same time the mother came on from Chicago, but kept out of sight, it is said, until Mr. Hovland returned to Beloit a week ago. No sooner did he arrive there than word was sent to him to return to Clinton, as the mother was acting queerly.

### MARVELOUS SCENIC EFFECTS

Some Wonderful Products of the Scene Painter's Art Will Appear Here

The much talked of railroad scene in the "Heart of Chicago," which comes to the Myers Opera House Aug. 30 it is said to be a really marvelous bit of mechanical scenic construction.

It is covered by twenty-five different patents. A train representing all the appearance of great distance from the observer and of rapid approach, finally dashes down to the footlights, full sized. The scene occupies ten minutes.

### Great Distress

Stomach and Kidneys All Out of Order

Hands Itched and Swelled—Hood's Sarsaparilla Completely Cured.

"For a number of years I was troubled with my stomach. Nearly everything I ate would sour and I would belch it up. At times my stomach gave me great distress. Every winter my kidneys would trouble me and my back would get lame so I could not do anything, and at last my hands swelled and itched intensely. I thought I would try Hood's Sarsaparilla. I bought six bottles and began taking it. In a short time my stomach appeared to be all right and my back felt better. When I had taken four bottles my back was all right and my hands were smooth."

## THE CAPTURE OF MANILA.

Details of the Victory on the Thirteenth.

## SIX OF OUR SOLDIERS KILLED.

Fleet Destroyed the Fortifications Before the Troops Advanced to the Attack—Spanish Loss Has Not Been Definitely Determined.

Manila, Aug. 14 (Via Hongkong, Aug. 18).—Manila surrendered yesterday, the 13th, after a combined attack by the American naval and land forces.

Admiral Dewey's fleet destroyed the fort at Malate and shelled the Spanish trenches, thus affording an opening for the American troops to enter the city. The soldiers then gallantly advanced, captured the fort and hoisted the American flag over it, meeting only a weak resistance from the garrison. They then pursued the retreating Spaniards into the city.

Six American soldiers were killed and thirty-nine were wounded in this attack.

Not a single shot was fired at the American fleet, except several rifle volleys, which were fired ineffectively on the Callao, which was close in shore shelling the trenches. Several bullets struck the Callao.

The Spanish loss is unknown at this writing, but it is not thought to be considerable.

Fort Malate, which was battered by the shelling, being apparently deserted after the fleet reduced Malate and the American forces occupied it, Admiral Dewey signaled to Manila, "Do you surrender?"

American officers then went ashore and a long conference followed between them and the Spanish authorities. Finally the governor surrendered the city, the American flag was hoisted over it at 5:43 o'clock in the afternoon, and the American troops were put in possession.

The weak resistance made by the Spaniards resulted from Admiral Dewey's efforts to take the city without loss of life or destruction of property. The surrender was chiefly accomplished by diplomatic negotiations conducted through the Belgian consul.

Admiral Dewey and Gen. Merritt sent an ultimatum to the city Aug. 7, giving the authorities forty-eight hours' notice that the land and naval forces of the United States would attack the city at the expiration of that period, or at any time thereafter that was convenient. This formal demand that the city surrender was sent Monday afternoon. The Spaniards refused to surrender. When the time had expired which had been allowed by the American commanders the Spaniards asked an extension of one day more, in order that they might move their sick and wounded and the women and children and non-combatants. This request was granted.

The foreign warships in the bay were notified of the attack, all of them withdrawing out of range. The British and Japanese warships joined the American fleet off Cavite, and the French and German warships steamed to the north of the city, where they were out of range.

The attack was arranged for the 9th inst., but at the last minute Gen. Merritt requested that the fleet postpone the bombardment until his lines could be extended farther around the city. Then Admiral Dewey informed the Spaniards that the attack would be made on Saturday; that he would destroy Fort Malate and shell the trenches, thus destroying the opposition to the land forces entering the city; that he would not fire on the city unless the guns of Manila opened on his ships, in which case he would destroy the city.

The Spanish commander sent word to Gen. Merritt that he wished the American troops to take complete possession of the city, to protect it from the insurgents, before the Spanish flag should be hoisted down.

Gen. Merritt and his staff, with 300 soldiers, then went ashore to arrange the final minor conditions of the surrender. The Spanish officers were allowed to retain their side arms, but were required to give up their horses.

Lieut. Brumby, with two sailors, went to haul down the Spanish flag. At 5:43 the American flag was hoisted over the city and immediately twenty-one guns were fired by the entire fleet. Spaniards, Chinese and natives greeted the American army with cheers and shouts of "Viva Americanos!"

The American troops are now in complete possession of the city. This morning official notification was given to the foreign admirals of the opening of the port.

Oshkosh Strike Is Settled. Oshkosh, Wis., Aug. 18.—The Oshkosh woodworkers' strike is practically settled. Representatives of the Foster-Gould companies and committees of their former employees had a consultation with the result that satisfactory terms were agreed upon and the men will go to work. The Williamson-Libbey company has practically settled, as has the Radford, and the others are expected to get in line. The strike has lasted nearly four months and from 1,500 to 2,000 men were involved.

Wall's Murderer Not Taken. Springfield, Ill., Aug. 18.—Otto Mathies, the murderer of Senator H. H. Wall, Staunton, has not been captured. Litchfield bloodhounds, in charge of two sons of the murdered man, have worked incessantly, but have not succeeded in catching the trail. A reward of \$500 has been offered and it hardly seems possible that the man can escape.

## SCOFIELD IS CHOSEN.

Governor Is Renominated by Wisconsin Republicans.

Milwaukee, Wis., Aug. 18.—The most interesting contest that has ever taken place in a Wisconsin republican convention over a nomination for the governorship of the state came to an end Wednesday night in the triumph of Gen. Scofield, who was chosen as a candidate for re-election. He was nominated over his opponent, La Follette, on the first ballot by a vote of 620 to 436.

The platform expresses approval of President McKinley's administration and particularly of the conduct of the war with Spain. The annexation of Hawaii is endorsed. With respect to the money question, the financial plank of the national republican platform of 1896 is reaffirmed. A red-hot plank declaring against the use of railroad or sleeping-car passes or express or telegraph franks by public officials was inserted by a majority of the committee, and also one aimed at the irregularities in the state treasurer's office. This paragraph declares against the payment of public funds to any person except in strict conformity to the provisions of the law.

Gilbert Roe, the lieutenant of La Follette, opposed the platform, and made a minority report. It consisted of an objection to the paragraph in which the administration of Gov. Scofield is endorsed. It was at once moved that the majority report be adopted, which was followed by an amendment substituting the minority report.

The convention took an adjournment to 10 o'clock this morning.

Pope Leo's Death at Hand.

Rome, Aug. 18.—The death of the pope is momentarily expected, notwithstanding the assertions from the vatican that his illness is only of a passing nature. Everybody is busily discussing his probable successor. It is the general opinion that his successor will be an Italian. In the election of the next pope, and in many elections to come, the principal motive guiding the sacred college will be the Roman question.

Spanish Papers Suspended.

Madrid, Aug. 18.—The republican papers, El Pais and Progreso, have been compelled to suspend publication. Rumors are current of a recrudescence of the Carlist agitation. The military authorities have closed all the military clubs in the province of Aragon. There are no signs, however, that the population would support a Carlist rising.

Funeral of Corbett's Father.

San Francisco, Cal., Aug. 18.—Nothing developed in the Corbett case to dispel the theory that the tragedy was the result of a disordered mind. The funeral services will be strictly private. Public services will be held upon the arrival of the two sons, James J. and Thomas, from the east.

Carnegie to Build a Library.

Dumfries, Scotland, Aug. 18.—Andrew Carnegie has offered the town council of Dumfries the sum of £10,000 to build a public library.

Some time ago, a little bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy fell into my hands, just at a time when my two-year-old boy was terribly afflicted. His bowels were beyond control. We had tried many remedies, to no purpose, but the little bottle of Colic, Cholera and Diarrhoea Remedy speedily cured him. —William F. Jones, Ogleby, Ga. Mr. A. O. Wolfe, of Dundee, Mo., who travels for Mansur & Tibbotts, Implement Co., of St. Louis, gives traveling men and travelers in general, some good advice. "Being a Knight of the Grip," he says, "I have for the past three years, made it a rule to make myself supplied with Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveling man in the U. S. will carry a bottle of this remedy in his grip." For sale by People's Drug Co., Milwaukee street.

## More Fall Shoes Have Arrived.

The best Shoe builders in the United States have been called upon for our stock this season. Dressy people like to be foremost in foot styles and therefore make early fall

purchases. For these folks and all early fall buyers we are preparing every day a great ovation in pretty footwear. You can be the first to wear the correct styles for fall if you wish to purchase now.

## Our Summer Tans Must Move.

The incoming of our fall stock makes it a necessity to push out all summer tans—men's and women's, boys' and misses—as hurriedly as possible. Our shelf room is already crowded to its utmost capacity. We are making prices that will move summer goods, and each sale is a surprise party to the purchaser. You will find it so if you try us.

Good Shoes. Cost more than poor ones. Sometimes the Shoe you pay the most for costs the least. It depends on where you buy them. Cheap folks ask less for cheap shoes than we ask for good ones, but theirs cost the most in the long run. We have placed all broken sizes in Oxfords on our bargain table and marked them, choice, 98c. All broken sizes of Ladies' Shoes are heaped together on a table, marked \$1.89.

## Republican Caucuses and Preliminary Meetings

Notice is hereby given that on the 25th day of August, 1898, at 7:30 o'clock p. m., preliminary meetings of the republican electors of the several wards of the city of Janesville, will be held at the places herein mentioned respectively, for the purpose of proposing names of delegates to be voted for at the caucuses to be held in said wards respectively at the same places on the 26th day of August, 1898, from four to eight p. m., for the purpose of electing delegates to the First Assembly District Convention, to be held at the common council chambers at the city of Janesville, September 1st, 1898, at two o'clock p. m., for the purpose of placing in nomination a candidate for assembly, which caucuses are hereby called at the times and places herein mentioned.

The representation and place of holding the preliminary meeting and caucus in each ward, being as follows:

First ward, ten delegates; voting booth owned by city on Terrace street near First ward school house; Second ward, six delegates; at the voting booth of the Second precinct being the building owned by John Thoroughgood at the northwest corner of Main street and Fourth avenue; Third ward, ten delegates; at the voting booth of the First precinct in said ward, being the building owned by W. B. Conrad near the east end of Court street bridge; Fourth ward, eight delegates; building owned by Janesville Machine Company on the southwest corner of River and Pleasant streets; Fifth ward, four delegates; at the voting booth of said ward, being the building owned by the city on Holmes street near Center avenue.

Dated July 15th, 1898.  
By Order of Rock County Republican Committee.  
W. T. VANKIRK, Chairman.  
W. A. JACKSON, Secretary.

## First Assembly District Convention.

A republican convention for the First Assembly district of Rock county will be held at the common council chamber in the city of Janesville, Wisconsin, on Thursday, September 1, 1898, at two o'clock p. m., for the purpose of placing in nomination a candidate for assembly, to be voted for in said district at the general election in November next, and for the transaction of such other business as may properly come before the convention. The representation of the several wards and towns being as follows:

City of Janesville, First ward, ten; Second ward, six; Third ward, ten; Fourth ward, eight; Fifth ward, four. Town of Janesville, three; town of Rock, three; town of La Prairie, three.

Dated August 15, 1898.  
By order of the Rock County Republican Committee.  
W. T. VANKIRK, Chairman.  
W. A. JACKSON, Secretary.

## GOV. SCOFIELD THE CHOICE.

Governor Edward Scofield will be the standard bearer of the Wisconsin republicans this fall, and his triumphant election is assured. The platform upon which he stands, is a distinctly republican platform, and one that cannot be criticised. It declares the issuing of passes and franchises to public officers a penal offense; demands laws to impose just taxes upon all corporations; favors legislation to insure the freedom of the ballot; condemns the practice of paying salaries in advance; denounces the lobby; endorses the state and national administrations; and reaffirms the St. Louis platform.

The factional contest that has waged for some time, is now a thing of the past, and although, of course, disappointment was the portion of one faction, all will be harmony in the party. The unanimous nomination of a candidate for governor can hardly be expected in any state convention, but the participants in all state conventions are republicans, and will continue to be republicans however much they may be disappointed because some particular candidate was not favored by the majority. The convention at Milwaukee reflected the sentiment of the republican party of the state both as to principles and men, in a very decisive manner and overwhelming victory will be the result.

The supporters of Mr. La Follette are naturally disappointed that he was not chosen as the nominee, but the principles he had advocated—as The Gazette has predicted—are all embodied in the platform, and the believers in those principles will support Gov. Scofield as their exponent with as much enthusiasm as they have shown in the support of the Madison man.

Therefore, Wisconsin will send her greetings to President McKinley and the wise republican national administration in the form of the largest majority that the Badger state has yet given a republican ticket.

## SENATOR C. K. DAVIS.

Senator Cushman K. Davis, of Minnesota, chairman of the senate committee on foreign affairs and a member of the Spanish American peace commission, may properly be claimed as a son of the Badger state. He

came here when quite young, his parents settling in Waukesha county. He attended Carroll college, graduating from that institution and subsequently from the state university. He engaged in the practice of law at Waukesha, but being attacked by the Minnesota fever went to St. Paul where he has resided for about thirty years. He has been governor of the state and is now serving his second term as United States senator. He is a devoted student, and a lawyer of high standing, being especially well versed in the usage and practice of foreign jurisprudence. He is, besides, a thoroughgoing American, believing with all his heart in the American Nation with the biggest kind of an N. That he will discharge the duties which will devolve upon him at the Paris conference with fidelity and ability goes without saying.

The hatchet has been buried in reference to the voice of the people, and Wisconsin republicans will now devote their energies to the attack on the works of the common foe.

Now that the republicans have united on a candidate and a platform, the number of democrats who are willing to make the race for governor will steadily decrease.

The wars are ended.

## FIVE BOYS CREMATED

Were Sleeping in a Barn Near Independence, Iowa, When It Was Struck by Lightning.

Chicago, Aug. 18.—[Special].—A terrible storm swept over independence, Ia., last night. A barn belonging to a man named Foy, was struck by lightning and destroyed by fire. Foy's five sons, asleep in the barn, were cremated.

## MANY ENJOYED THE PLAY

"A Breezy Time" Was All That It Was Cracked Up To Be.

"A Breezy Time" blew into town yesterday from Kenosha, and held the boards at the Myers Grand last evening. The show has been here before, but with it last evening came several new faces and some new features added.

Fitz and Webster are old time favorites in this city, and their kind of fun never gets tiresome. The play throughout is a roaring farce comedy, full of good specialties and music, and nothing else is claimed for it. A fair sized house was on hand, and the performance gave general satisfaction.

## DREAMS FOR BILL POSTERS

Manager Myers Is Erecting a Large Number of Bill Boards.

Ten thousand feet of new bill board space is now being erected in this city by Peter L. Myers, manager of the Myers Grand Opera House. The job is the largest one of its kind ever attempted in this city at any one time. Manager Myers has of late leased some of the most valuable bill board space in the city, and is now making good use of them in the erection of a fine set of boards. Some of the stands will be twenty feet high and will be able to accommodate show paper of the largest size.

## PRAISES COLEMAN'S WORK

Evansville Paper Says His Article Is Worthy Of Praise.

The following is taken from the Evansville Tribune: "Joseph Coleman came up from Janesville Saturday, on his wheel and his Evansville friends were all glad to meet him with a hearty friendly shake. He has just returned from an editorial excursion to the Pacific which he enjoyed very much and will always have a good word for the editorial fraternity in the future. His article descriptive of his trip in the Fort Atkinson paper is well worthy of praise by all."

## PICNICKED AT IDLEWILE

Pleasant Ladies' Outing Party Spends A Afternoon Up the River.

Mrs. Charles L. Clark and Miss Tillie Bailey were the hostesses at a delightful river party given yesterday at Idlewild Park. Ladies were the only participants in the affair and on the steamer Idlewild they made the trip. The function was in the nature of a picnic, and the repast that was served proved one of the attractions of the afternoon. The day was one of pleasure and will be remembered for some time to come by those so fortunate as to be present.

## THE LIQUOR CURE

It Is Now An Accomplished Fact In Janesville.

The liquor habit is now being treated and permanently cured at the Hargreaves Institute, whose offices are at Room 1 Jackson block. Many wonderful cures have been made and patients are well pleased with the successful treatment they receive. Full information freely given.

Tax I. N. L. cold water stretch next wash day. Three packages for 25 cents. Sanborn.

WANTED—By young lady, good woman, or office or business use, position of any kind in office.

## GOVERNOR SCOFIELD WAS NOMINATED

[Continued from page 1]

was late this morning before they made their appearance in the hotel lobby, and some were heavy eyed and listless. But interest revived as the time for opening the convention approached, and everybody was in his place when the chairman rapped for order.

Throughout the balloting there was a keen interest, and the friends of rival candidates did a good deal of hustling. Little time was wasted in speech-making, the candidates being placed before the convention on the evident presumption that their qualifications were ample and their characters above reproach.

The delegates were good natured throughout. Those who suffered defeat accepted the result with a promise to "make it right" two years from now, and cheered for the successful candidate with vigor and enthusiasm. The ticket as a whole is regarded as a strong one, both personally and geographically, and will receive a cordial support from the present time till election day.

The convention met at the appointed hour and after order had been obtained nominations for state officers were called for.

Jesse Stone, of Watertown, and Frank C. Tucker, of Winnebago, were put before the convention as candidates for lieutenant governor. Mr. Stone won by a vote of 756 to 298.

William H. Froelich beat Walter L. Houser for secretary of state, on the first ballot, 550 to 500.

Charles M. Hambright, of Racine, was nominated for state treasurer by Ogden H. Fethers. A. H. Long nominated James Davidson. The first ballot showed Davidson far in the lead, and a shift of three votes in the Sixth district before the vote was announced gave him the nomination by one-half of one vote.

E. B. Hicks, of Oshkosh, was nominated for attorney general.

For superintendent of schools, L. D. Harvey received the nomination. W. A. Fricke, for insurance commissioner completed the ticket.

## POISONED HIS FAMILY

Serious Accusation Laid Against a Milwaukee Grocer.

Milwaukee, Aug. 18.—Joseph Zaturski, a grocer at 95 Wright street, is under arrest and four members of his family are suffering from the effects of supposed arsenic poisoning. There is no proof that Zaturski placed the drug in the coffee that made them ill, but he is held because of his sudden disappearance after the matrimonial meal yesterday morning and because part of a quarter ounce vial of arsenic he is known to have purchased has disappeared. After breakfast yesterday Mrs. Zaturski, her son and two daughters, aged and thirteen eight years respectively were suddenly taken ill. When Dr. William Schorke reached the house they were in a serious condition. He diagnosed their cases as poisoning and thought it probably came from the coffee.

Zaturski disappeared shortly after his breakfast, which he finished before the other members of the family. He was not at the store, and no one knew where he had gone. Dr. Schorke reported the case to the police, and detectives were immediately detailed to find the missing grocer. They found that one-quarter of an ounce of arsenic had been purchased by Zaturski at the drugstore at Center and Humboldt streets the day before. A search of the house resulted in the bottle and a part of the drug being found in the man's room.

## IMPROVEMENTS IN SCHOOL

St. Paul's German School Has Been In The Hands of Renovators.

When St. Paul's Lutheran parochial school is thrown open to the public the first of next month numerous changes, in both its interior and exterior will be noticed. During the present vacation painters have been busy at work on both the inside and out, and the building now presents a neat appearance as the day it was completed. Other improvement have been made, and everything put in readiness for the opening day.

Principal Millitzer will be in charge, and will be ably assisted by Miss Wandschneider. During the present vacation improvements have also been going on in the church which adjoins the school. A new furnace has been put in and many other improvements added.

Members of St. Paul's Lutheran church have good reason to feel proud of their school and church.

## SMOKING AS A NUISANCE.

There Should Be Some Sort of Public Conscience in Regard to It.

An alarming "accident" is reported today, which nearly had the most serious consequences; and we can vouch for it that this accident is by no means an isolated case of the sort, says St. James' Gazette. As a lady was walking along Cannon street an omnibus passed by, with a full load of passengers on the top; and one of them, after lighting a cigarette, threw the match on the pavement. The flame caught the lace of a lady's dress and in a moment she was in flames; and the report shows what a narrow escape she had from being burned to death. We should be glad to think that this affair might prove a public warning, were it not that it is only a very few years since a lady was actually burned to death, through a similar cause, at one of the South Kensington exhibitions. Most of us have heard of similar occurrences, when lighted cigarettes or matches, or burning ash from a pipe, have been dropped from the tops of omnibuses or otherwise in the public streets, with resulting injury to bonnets and dresses if not to the person of anybody unlucky enough to be in the way. The roofs of omnibuses are used to a very large extent by thoughtless people, who smoke, light matches, and (an even more disgusting and annoying, if less dangerous habit) expectorate, without regarding for a moment the fact that they are in a public place, where other persons may suffer for their acts. In summer, when ladies are wearing light dresses, and especially when, as now, muslin and such inflammable materials are in fashion, this practice of reckless smoking in the streets develops into a public danger; and when the omnibus companies take to encouraging the habit, by providing penny-in-the-slot machines for cigarettes, it seems desirable to draw as much attention as possible to this growing evil. We have no desire to begin a campaign against smoking in itself. But it is as well to recognize that the prevalence of smoking is such that some sort of public conscience is required, some inner rule of good manners, at all events, which should restrict the indulgence of this pleasure in such a way as not to turn it into a nuisance. And in certain places—such as railway stations, railway carriages, omnibuses, trams, etc.—the proprietors, whether individuals or companies, ought to see that the by-laws give protection against what may be called the natural and ordinary accidents and annoyances which may be expected in the usual course to follow from a reckless use of the facilities offered. The way in which smoking in public has increased in the last ten years or so is really more significant than any statistics of the increase in the amount of the consumption of tobacco.

There should be some sort of public conscience in regard to it.

An alarming "accident" is reported today, which nearly had the most serious consequences; and we can vouch for it that this accident is by no means an isolated case of the sort, says St. James' Gazette.

As a lady was walking along Cannon street an omnibus passed by, with a full load of passengers on the top; and one of them, after lighting a cigarette, threw the match on the pavement.

The flame caught the lace of a lady's dress and in a moment she was in flames; and the report shows what a narrow escape she had from being burned to death.

We should be glad to think that this affair might prove a public warning, were it not that it is only a very few years since a lady was actually burned to death, through a similar cause, at one of the South Kensington exhibitions.

Most of us have heard of similar occurrences, when lighted cigarettes or matches, or burning ash from a pipe, have been dropped from the tops of omnibuses or otherwise in the public streets, with resulting injury to bonnets and dresses if not to the person of anybody unlucky enough to be in the way.

The roofs of omnibuses are used to a very large extent by thoughtless people, who smoke, light matches, and (an even more disgusting and annoying, if less dangerous habit) expectorate, without regarding for a moment the fact that they are in a public place, where other persons may suffer for their acts.

In summer, when ladies are wearing light dresses, and especially when, as now, muslin and such inflammable materials are in fashion, this practice of reckless smoking in the streets develops into a public danger; and when the omnibus companies take to encouraging the habit, by providing penny-in-the-slot machines for cigarettes, it seems desirable to draw as much attention as possible to this growing evil.

We have no desire to begin a campaign against smoking in itself. But it is as well to recognize that the prevalence of smoking is such that some sort of public conscience is required, some inner rule of good manners, at all events, which should restrict the indulgence of this pleasure in such a way as not to turn it into a nuisance.

And in certain places—such as railway stations, railway carriages, omnibuses, trams, etc.—the proprietors, whether individuals or companies, ought to see that the by-laws give protection against what may be called the natural and ordinary accidents and annoyances which may be expected in the usual course to follow from a reckless use of the facilities offered.

The way in which smoking in public has increased in the last ten years or so is really more significant than any statistics of the increase in the amount of the consumption of tobacco.

Wanted the Old Testament.

The women of Coffeyville, Kan., made up a package of useful articles for each member of the local company of volunteers and sent the whole to the camp at San Francisco. A copy of the New Testament went with each package, and one of the recipients objected to the gift. He said he wanted the Old Testament, because there was so much more war in it.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham's address in Lynn, Mass.

The following letter from Miss MARIE F. JOHNSON, Centralia, Pa., shows what neglect will do, and tells how Mrs. Pinkham helped her:

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity."

TELEGRAPHIC NEWS  
PROSTRATES HERDEAD SOLDIER BOY'S MOTHER  
RETURNING HOME.

Answer Received This Morning From Mrs. Gifford Dated From Guthrie, Kentucky—Her Son Carried One Thousand Dollars Insurance—Will Be Buried Here.

Mrs. Ella Gifford, of 305 Division street, who left the city Tuesday afternoon for Jacksonville, Florida, to care for her sick son, not knowing that he was dead, received the telegram sent her informing her of the fact at Guthrie, Ky., yesterday afternoon. This morning the following telegram was received by George S. Parker, of this city, coming from Mrs. Gifford and bearing the date of Guthrie:

On the way home. Completely prostrated yesterday.  
Just when Mrs. Gifford will arrive home is not known, but she is expected by local relatives on a late train this evening. Friends will be at the depot to meet her, and all that can be done in her behalf in this her hour of sorrow will be administered by loving ones.

Carried an Insurance Policy.

Several months prior to the breaking out of the late war Private Gifford thought that to take out an insurance policy in behalf of his mother would be a good plan, and accordingly he secured a policy in one of the leading companies for \$1,000. When he enlisted as a volunteer he did not drop his policy as most boys did, but instead took the trouble to have the insurance agents in Milwaukee make the necessary changes in his policy so that it would be payable in case of death while in the military service. The policy has since been running, with this condition, and will soon be paid to the grief stricken mother.

Remains Will Be Brought Home

George S. Parker, of this city, forwarded a telegram of inquiry to Captain Hanson at Jacksonville relative to the disposal of the body of Private Gifford. This afternoon he received the following telegram from Captain Hanson at Jacksonville under date of Thursday, Aug. 18:

"Remains will arrive Saturday noon on North western. Can bury in Company lot if wish."

CAPTAIN HANSON.

By this telegram it is plainly to be seen that the body was not interred at Jacksonville as was supposed to be the case yesterday. Local relatives stated this afternoon that they had made no definite arrangements for the funeral as yet, and would not do so till the arrival of Mr. Gifford, who is expected home on the midnight train. All honors due a soldier will be accorded the deceased in this city on the arrival of the body.

Mr. Swartz's Death.

The death of Albert J. Swartz, also of Company A, was a great shock to his parents at Pierceton, Ind. Yesterday they were notified by telegraph

HAD GOOD TIME AT THE PARK

Illernians Enjoy Their Annual Picnic at Crystal Springs

The annual picnic of Division No. 3 A. O. H. was held today at Crystal Springs park, and proved to be one of the most pleasant out door events of the year. The first boat left the city at 9 o'clock this morning carrying a good sized crowd who wished to be first on the grounds so as to get all in readiness. Every half hour afterwards boats left, and each time they carried a good sized delegation.

Those who went in the early part of the day carried with them well filled lunch baskets, and at noon a tempting old time picnic repast was served in groups about the grounds.

The afternoon was devoted to dancing and athletic sports, and the program carried out was a most interesting and pleasing one. This evening the day's festivities will be brought to a fitting close by a dance, for which Prof. Smith's full orchestra will furnish music.

YOUTHFUL GAMBLERS FINED

For Shooting Craps Four Boys Fined \$4.41 to the City

In the municipal court this morning six sorrowful looking youths stood before the bar of justice to answer to the charge of gambling. According to the complaint they were all charged with "shooting craps." In other words they gambled for money by shaking dice.

The boys had but little to say aside from the fact that they had made up their minds not to gamble any more, and especially on Sunday, but instead be good boys and attend Sunday school in the future. Acting Judge Patten then administered a lecture, and fined four of the number \$2 and costs each, or a total of \$4.41, which was paid.

The two remaining lads stated that they did not play on the day of their arrest, and they were allowed their freedom.

TWO WERE BADLY INJURED

Man Thrown From His Bicycle and Another Caught in Machinery.

Harry Baker, while crossing the railroad tracks this morning on his bicycle, lost his balance and was thrown violently to the ground, cutting a deep gash in his knee that needed several stitches from a surgeon's needle.

John Koerber, while at work in a local machine shop yesterday, caught his hand in the machinery, and before he could free himself, was badly cut. Dr. James Mills was called, and the injury was dressed. Koerber will be laid up for some time.

ANOTHER LOCAL LAD  
IN FIGHTING RANKS

EDWIN P. SALSAMAN WRITES  
FROM PORTO RICO.

Interesting Letter Received By His Father Here Today—Was a Member Of Second Wisconsin From Appleton—Saw Actual Fighting About the Island.

Edwin P. Salsaman, a well known Janesville boy, and the son of T. J. Salsaman, has been in the midst of plenty of excitement of late, having taken part in several battles on the island of Porto Rico. After leaving Janesville Mr. Salsaman went to Appleton, Wis., where he joined Co. G, Second Wisconsin Regiment, at the call for volunteers. When the Second and Third Wisconsin left the Badger State Mr. Salsaman was at once ordered to Camp Thomas, Tennessee, and there he remained till transported to Porto Rico.

Had a Tiresome Trip. In a letter received in this city today, and bearing the date of July 27, Private Salsaman stated that he wrote under difficulties at sea while aboard the transports. In part he says: We arrived at Porto Rico all right but had a very tiresome trip. We landed in a small bay, seven thousand of us and part of Sampson's fleet. We had a battle last evening and seven Americans and four Spaniards were killed. The island is mountainous; in fact it is almost all mountains, which gives the Spaniards the advantage over us. We are all on board our ships again, and expect to bombard Ponce, the largest city in the island as are only sixteen miles from there. We are all anxious to get some Spanish blood.

When you write send me stamps and lemons and I will be O. K. I had the honor of bringing six men from Camp Thomas to Charleston.

Plenty of Action.

In letters previously received from Private Salsaman he speaks of having seen plenty of action, but says that as yet he has been fortunate enough to escape injury.

Private Salsaman is 22 years of age, and is the second son of T. J. Salsaman, of this city, and a young man respected by a large circle of friends.

HOT BOX STOPPED THE CARS

There Was a Short Suspension of Street Car Travel Near Noon Today.

A hot box on the crank shaft in the

machine room at the street car power

house, resulted in a shut down of the

entire line at 11 o'clock this morning,

and before the cars resumed their

journey over an hour's time was lost.

Many persons residing in the outlying

sections of the city depend each day

on the cars, but this noon those who

did not patronize down town restau-

rants had to make the trip home afoot.

At 12:45 the damage was repaired,

and the cars resumed in time to con-

vey many to their work. The accident

happening at the noon hour deprived

the company of many nickels.

## BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Not content with once defeating Burns' unfortunates, Nichols went into the box again yesterday. Three hits was the distressing total registered from his batters, and of course the Champions won. Buck Ewing dropped another to New York, and Baltimore increased its per cent from Louisville. Philadelphia fairly swamped Pittsburgh, batting Tannehill from the box, and Washington defeated Hurst's aggregation. Scores:

At Boston—Boston, 6; Chicago, 2.  
At New York—New York, 3; Cincinnati, 1.

At Baltimore—Baltimore, 4; Louisville, 2.

At Philadelphia—Philadelphia, 13; Pittsburgh, 1.

At Washington—Washington, 9; St. Louis, 5.

Cleveland at Brooklyn—Rain.

Games to-day: Chicago at Boston, Cleveland at Brooklyn, Pittsburgh at Philadelphia, Cincinnati at New York, Louisville at Baltimore, St. Louis at Washington.

## Interstate League.

At Grand Rapids—Grand Rapids, 14; Dayton, 4.

At Toledo—Springfield, 5; Toledo, 0.

At Fort Wayne—Fort Wayne, 6; Youngstown, 5.

At Mansfield—Newcastle, 9; Mansfield, 8 (thirteen innings); Newcastle, 4; Mansfield, 1.

## Western League.

At Indianapolis—Kansas City, 7; Indianapolis, 1.

At Columbus—Minneapolis, 17; Columbus, 10.

At Milwaukee—Milwaukee, 2; St. Joseph, 0.

At Detroit—St. Paul, 6; Detroit, 2.

SCALE NOT TO BE CHANGED.

Miners' Wages in Illinois Will Remain as They Have Been.

Springfield, Ill., Aug. 18.—The committee of reference of the national executive board of the United Mine Workers of America has rendered its decision in the matter of the request of the operators of the Chicago & Alton sub-district, including Virden and other places south of Springfield, for a reduced scale. The committee declines to change the scale, and submits a lengthy report to President Hatchford, which is in part as follows:

"We draw attention to the fact that there are 853 mines of all kinds in this state, of which 310 are shipping mines. The annual production of all shipping mines is about 20,000,000 tons. In the district known as the Chicago and Alton sub-district there are nine mines classed as shipping mines, and from the testimony of operators from the Chicago & Alton road it is shown that about 1,000,000 tons is produced annually by mines in this sub-district. This, we believe, clearly demonstrates the fact that this sub-district has enjoyed advantages over its competitors."

The decision has undoubtedly averted a general demoralization of the coal trade in the state.

## Canada's Big Wheat Crop.

Toronto, Ont., Aug. 18.—Canada's wheat crop this year will be by long odds the greatest in the history of the dominion. The Ontario government bulletin shows that the fall wheat crop will be 25,000,000, or 1,000,000 more than last year, and the spring wheat crop 6,500,000, or 1,500,000 more than last year. Harvest operations are now in full swing in Manitoba, and the wheat crop there will be about 15,000,000 more than last year, estimates this year ranging from 40,000,000 to 50,000,000 bushels. The condition of wheat in Canada was never better and will all grade very high.

## White and Black Americans.

Omaha, Neb., Aug. 18.—A unique convention assembled here Wednesday. It is a congress of white and colored Americans, the object being the discussion of methods for bringing about a better understanding between the races in the United States. Addresses were delivered on the race problem. The consensus of opinion as developed by the discussion is that both sides are wrong to a large extent and mutual concessions must be made. Steps have been taken for a permanent national organization.

## Fearful Plunge of a Train.

Victoria, B. C., Aug. 18.—News has been received here of an accident on the Union Colliery Railway line, resulting in the death of at least six persons. As far as can be learned, a long work train, with a passenger coach attached, plunged through the trestle which spans the Trent river about midway between the wharf and Union City. It was about 125 feet high and 500 feet long.

## Warships to Leave Colombia.

Colon, Colombia, Aug. 18.—A New York World correspondent cables: Signor Cacciari, the Italian minister, received a dispatch from Rome, informing him that the Corrucci claim had been satisfactorily adjusted. The minister will accordingly leave at the first opportunity, and the Italian warships will leave Colombian waters this week.

## Senator Davis Has Accepted.

Washington, Aug. 18.—Senator Cushman K. Davis, chairman of the senate committee on foreign relations, notified President McKinley Wednesday that he accepts the appointment as a member of the Spanish-American peace commission.

## Thirty Killed in a Wreck.

Cape Town, Aug. 18.—A collision is reported to have occurred at Matjesfontein between a goods train and a passenger train. Thirty passengers were killed.

## BOMB FOR JOHN HILL.

Attempt Is Made to Kill the Man Who Fought the Gamblers.

Chicago, Aug. 18.—An attempt to assassinate John Hill, Jr., leader of the anti-gambling crusade, was made at his home in Morgan Park early Wednesday. A dynamite cartridge, suspended from a pole and connected with a fuse, exploded at 2:10 o'clock at the window of a bedroom in the rear of Mr. Hill's home, where he and Mrs. Hill were asleep. Two children, Dora and Emil, who were slumbering in an adjoining room, were covered with dirt and pinned underneath the window sash, which was torn out by the explosion. All Morgan Park is excited over the affair, and the police and friends of Mr. Hill ascribe the cowardly deed to gamblers whom Mr. Hill prosecuted in court.

## France Is Officially Thanked.

Paris, Aug. 18.—At the cabinet council this morning the minister of foreign affairs, M. Delcasse, read dispatches from President McKinley and the queen regent of Spain thanking the president and government of the French republic for their good offices in promoting negotiations. M. Delcasse added that the governments at Washington and Madrid, desiring to give France a proof of their high esteem and confidence, had selected Paris as the scene of the negotiations for the final treaty of peace.

## Trip to Havana Is Delayed.

Tampa, Fla., Aug. 18.—The Plant line steamer Mascotte will not go through to Havana on the present trip, as the steamship company officials could not complete the necessary arrangements. Several private vessels have been engaged to take cargoes across to Havana this week. None of the government transports has started from Tampa, and the quartermaster's department is now waiting on orders from Washington regarding the shipment of supplies for distribution by the Red Cross agents.

## Date for Big Fight Postponed.

Buffalo, N. Y., Aug. 18.—It is almost certain the Corbett-McCoy fight will be held before the Hawthorne club here on Oct. 1. It will be either that date or Sept. 24. Manager Wilson of the club says no man will be considered for Corbett's end of the fight until the Californian says he will not come. Should Corbett fail to agree on a date for the contest, Fitzsimmons is the only man the club will pit against McCoy.

## Thinks an Explanation Is Due.

London, Aug. 18.—The Times in an editorial article this morning says: "An editorial article this morning says: 'An the signing of the protocol could not have been known when the Germans arranged to remove Gov.-Gen. Augusti the transaction comes remarkably near a deliberate breach of neutrality. But for the German action Augusti would have been a most important prisoner of war. The whole story decidedly wants explanation.'"

## VOLUNTEERS WILL DECIDE.

Plans for the Reduction of the Army.

## M'KINLEY GIVES HIS DECISION.

The President Will Ascertain the Wishes of the Men Before Any Action Is Taken—From 75,000 to 100,000 Men to Be Discharged.

Washington, Aug. 18.—Admiral Dewey announces the capture of Manila in the following dispatch, received by the navy department Wednesday:

"Manila, Aug. 13.—Secretary of Navy, Washington: Manila surrendered today to the American land and naval forces after a combined attack. A division of the squadron shelled the forts and intrenchments at Malate, on the south side of the city, driving back the enemy, our army advancing from that side at the same time.

"The city surrendered about 5 o'clock, the American flag being hoisted by Lieut. Brumby. About 7,000 prisoners were taken. The squadron had no casualties; none of the vessels was injured. August 7 Gen. Merritt and I formally demanded the surrender of the city, which the Spanish governor-general refused. DEWEY."

The war department received a dispatch late in the afternoon from Maj. Gen. Merritt at Manila. It gave no account of the capture of the city by the American forces, but implied that some dispatch preceded it, which the authorities in Washington have not yet received. Gen. Merritt asked for instructions as to the government of the captured territory. He was told to enforce strict military law, treating all law-abiding persons alike.

Washington, Aug. 18.—The president has announced his decision to muster out of the service from 75,000 to 100,000 of the volunteers. Those to be discharged will include three branches of the service—infantry, artillery and cavalry.

The question of the mustering out of volunteers has been under consideration for several days. It was quite evident to begin with that a considerable force necessarily would have to be retained. With only a part of the volunteer force to be mustered out, it became a delicate question to designate the organizations which should go.

From a prominent official of the administration it is understood to be the desire of the president to ascertain the wishes of the volunteer troops themselves as to remaining in the service. One or two organizations have already indicated a desire to leave the service as soon as the government can reasonably do without them. They are composed largely of business and working men, whose private interests are suffering by reason of their absence from home.

So far as the interests of the government will permit, it is believed that the president in the mustering out of the volunteers will accommodate himself to the desires of the men themselves. Within certain obvious limitations, those troops who want to be mustered out will be and those who desire to continue in the service will be retained as long as they may be needed.

It may be some time before the organizations to be mustered out will be designated, but the reduction in the volunteer force will be made as soon as practicable.

## AS TO PRIZE MONEY.

Dewey Probably Will Receive \$100,000 for His Work in the War.

Washington, Aug. 18.—Auditor for the Navy Department Frank H. Morris, to be prepared for any calls congress may make upon his office for information concerning the payment of prize money, has prepared a statement covering the period from 1890 to July 1st, 1898, but not including the captures in the war with Spain. This statement covers the Algerian, British, Mexican and civil wars and the suppression of the slave trade, and shows that the prizes taken were valued at about \$30,000,000 in round numbers.

Of this sum \$15,504,004 was distributed as prize money. Admiral Farragut appears to have received the largest amount, \$140,885.73. Cushing received about \$57,000 and Porter about the same amount. Six per cent of the prize money, or \$901,000, remains in the treasury, as 22 per cent of those entitled to prize money never asked for it, probably because the awards were so small, some of the allowances amounting to only 26 cents.

The treasury officials estimate that Admiral Dewey will receive as prize money out of the Spanish war about \$100,000.

Of the \$200,000,000 of war bonds \$40,269,740 has been distributed to date to 82,269 persons.

## GERMANY MEANT NO HARM.

Not Yet Informed Regarding August—The Powers and the Philippines.

Berlin, Aug. 18.—Although the German government immediately communicated with Hongkong on learning of the report that Capt. Gen. August had escaped from Manila on board the German cruiser Kaiserin Augusta, no confirmation of it has yet arrived. The government expects, however, that if the report shall prove true, it will

be found the action of the German admiral means nothing unfriendly to the United States.

The Taegliche Rundschau publishes an article, in which it is maintained that the question of the disposition of the Philippines under no circumstances will be permitted by Europe to be settled between the United States and Spain alone. The Rundschau declares that an international conference is sure to be held in regard to this matter. From the highest official quarter the information is given that the article is baseless. It is added: "The German government from no side whatever has been requested or urged to participate in any conference to consider the question of the Philippines." There is an impression that Germany will not share in any such movement, and certainly will not take the initiative.

## The Philippine Army Needed.

St. Petersburg, Aug. 18.—The Journal of St. Petersburg (semi-official) says: "The prestige of the white population in the Philippines has been almost entirely destroyed by the war. If an attempt is made to give the islands autonomy it should be effected gradually under strictly benevolent European tutelage. Any other regime would bring back barbarism." The paper comments upon the difficulties facing the United States in dealing with the insurgents in the Philippines as far greater than those met in dealing with the yellow race in America. A large army, it says, will be needed and the liberal, philanthropic colonizing ideas of the Americans must give way to graver considerations.

## Will Disband Cuban Army.

Washington, Aug. 18.—President McKinley and the members of his cabinet are unanimous in the determination that one of the first official acts toward bringing about a restoration of peace and order in Cuba shall be the disbandment of the Cuban army. As there is no longer a Spanish army in the field in Cuba, there is no longer any reason for the existence of the Cuban army, and it is, therefore, to be regularly mustered out of service. The administration has no idea, however, of paying the Cuban soldiers for their services during the war, or of assuming the responsibility for their payment.

## Spanish Point on Manila's Fall.

Madrid, Aug. 18.—Wednesday's cabinet council, according to Capt. Anon, minister of marine, discussed only a brief dispatch announcing the fall of Manila, which, as the government will report, occurred several hours after the peace protocol had been signed. The question of the peace commissioners and the meeting of the cortes were not discussed, but it is understood that the ministers agreed in principle as to the date of the convocation of the cortes.

## Have No Fear of Infection.

Washington, Aug. 18.—Orders have been issued directing that the paymasters who have been at Santiago with \$1,500,000 shall proceed at once to Porto Rico to pay the troops. Gen. Miles did not want these paymasters and the money to be sent to Porto Rico from Santiago for fear they might bring yellow fever. The surgeon-general's office does not believe there is any danger of infection.

## The Deaths at Santiago.

Washington, Aug. 18.—Six deaths among the troops at Santiago are reported by Gen. Shafter to the war department. His dispatch follows: "Santiago de Cuba, Aug. 17, 1898.—Adjutant-General of the Army, Washington, D. C.: Sanitary report for Aug. 16.—Total number sick, 1,516; total number fever cases, 1,139; total number new fever cases, 93; total number fever cases returned to duty, 236."

## President to Review Troops.

Washington, Aug. 18.—President McKinley Wednesday told Gen. Wheeler that he would review the troops which participated in the Santiago campaign as soon as they are in condition. The parade will precede the mustering out of the volunteer forces now at Montauk point and will probably take place in New York city. The date has not yet been fixed, and will depend upon the rapidity with which the soldiers recover their health.

## Eight Thousand Men at Montauk.

New York, Aug. 18.—There are now about 8,000 troops at Montauk Point, and they are mostly in camps of detention and in tents about the sand dunes. Additional troops are arriving daily. One soldier died in the detention camp Wednesday. He had fever, but whether it is yellow or malarial is not definitely known. There are five yellow fever cases in the detention hospital.

## Iowa Batteries to Be Discharged.

Des Moines, Ia., Aug. 18.—Information has been received from Washington that the men in the Fifth and Sixth Iowa batteries of light artillery who came to Camp McKinley in this city from Cedar Rapids and Burlington some time ago, will soon be discharged.

## Porto Ricans Massacred.

Ponce, Porto Rico, Aug. 18.—The report of a massacre by Spaniards at Ciales on Saturday last has been confirmed by a letter from that place. The Porto Ricans are deeply incensed at the murderous brutality of the Spaniards and threaten vengeance. Other massacres are feared in the northern part of the island.

## WILL BUILD NEW WARSHIPS.

Fifteen Vessels of War to Be Constructed.

## MOST POWERFUL SHIPS AFLOAT

Naval Board Decides on a Big Addition to Our Fighting Force on the Sea—Boats Will Be Superior to the Ships of Any Navy in the World.

Washington, Aug. 18.—A naval program for presentation to congress, involving the immediate construction of fifteen warships, has been adopted by the naval board of experts, to whom the subject had been referred by Secretary Long. It provides for three sea-going barbette-turret battleships of 13,000 tons displacement and a minimum of eighteen and one-half knots speed when the vessels are loaded to their deepest draft, or an average speed above nineteen knots under ordinary cruising conditions; three first-class armored cruisers of 12,000 tons and 23 knots speed; three second-class protected and armored cruisers of 6,000 tons displacement and twenty knots speed, similar to the Maine type but highly improved, and for six protected cruisers of 2,500 tons and sixteen knots speed.

The board decided that the Pacific rather than the Atlantic would be the chief theater of American naval operations in the future, and that while great sacrifices to high speed could be safely made for vessels attached to the outer line of national defense on the east coast of the United States, abnormal coal capacity and high economy were prime requisites as long as distant possessions to the westward required protection. All the vessels, however, will be as speedy as the fastest vessels now building abroad, and they will be eminently more practicable in endurance, strength and formidability.

The main batteries of each of the battleships will be composed of four 12-inch rifles in turrets on the center line fore and aft, similar to those of the Iowa, and the secondary batteries will mount from fourteen to sixteen rapid-fire 6-inch guns. In addition to these there will be unusually large auxiliary batteries of assorted-pounder sizes, both quick-fire and semi-automatic. The big 13-inch guns of earlier battleships have been put aside in the new designs.

The first-class cruisers are to be superior in every way to any ships now afloat in the world today. What Dr. A. E. Salter says. BUFFALO, N. Y.—Gents:—From my personal knowledge, gained in observing the effect of your Shiloh's cure in cases of advanced consumption, I am prepared to say it is the most remarkable remedy that has ever been brought to my attention. ## PEOPLE WE KNOW.

They Are Janesville People and What They Say Is Of Local Interest.

When an incident like the following occurs right here at home it is bound to carry weight with our readers. So many strange occurrences go the rounds of the press, are published as facts, when the intelligent reader knows they cannot be true, there is no wonder that people become skeptical. On one subject skepticism is rapidly disappearing. This is due to the actual personal experience of our citizens and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one whom you can see any day, leaves no ground for the skeptic to stand on:

Mrs. S. L. Deben of 64 S. River St., says: "During the last two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the Janesville Co's. drug store and persuaded me to use them. I am very glad I did so for they took right hold and in a wonderful change in my condition I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions. I have recommended this remedy on several occasions, and will do all that I can to let others know of its merits."

## HEADED FOR LOWELL'S!

When people start for this place there is no stopping them. They violate the ordinance for fast driving, but they lose no time in reaching the popular trading place of Janesville. They are coming

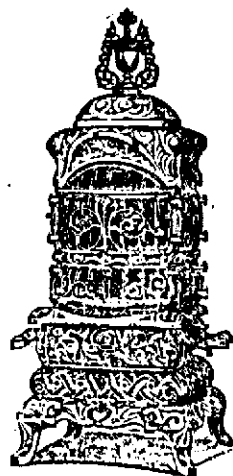

our way in Stoves this fall. We can tell that from present indications. Stove business has already commenced with a rush for the time of the year.

The World  
Famous...

### Garland

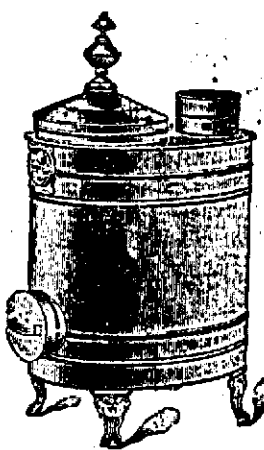

is again in the lead. Over 144 styles, but only one quality. No make of Stove used in Rock County so popular as the Garland. Its good points are numerous and every year adds to its reputation. Our experience of thirty years in the Stove business gives us an insight that can only be obtained in this manner. We have had great opportunity to see the qualities of all Stoves, and to note their imperfections as

well. The Stoves we sell are picked out with regard to our Stove knowledge. Not one but that is reliable: Garland, Radiant Home, Peninsular, Jewell and Round Oak. You can bank on their being satisfactory.

### Air Tight Stoves!

Hold fire forty-eight hours. These Stoves have come into prominence the past few years. They burn anything, are economical, leave no ashes, and, above all, are very low in price. We have received a very large line of them.

Newly Married People buy their housekeeping outfits here because they get what they want and save money when every dollar counts.
